# MAINTENANCE ADVICE

1. Please keep the backpack dry at all times.  
If the backpack becomes wet or gets damp for a long time, it may cause deformation.
2. Do not overload the backpack, otherwise it may cause the surface to wrinkle, deform or crack.
3. Never allow the backpack to be exposed directly to the sun for long periods, become too hot, be washed, loaded with sharp objects or to come into contact with any chemical solvents.
4. Avoid exposing the metal parts to a humid or salty environment, otherwise it may become oxidized leading to rust.
5. Store the backpack in a dry and well-ventilated environment.
6. Always use a cleaning brush or cotton cloth suitable for the different materials of the backpack to remove dust and dirt.
7. Do not machine wash the backpack, otherwise it may cause deformation as well as oxidation of the metal parts.
